

100% Satisfaction Guaranteed

Given the necessity of shop safety, you must be completely satisfied that your safety products perform exactly as they should. We strive for 100% customer satisfaction and will gladly replace or credit any product that does not perform to your expectations.

Our network of eight U.S. SuperStores and over 30 experienced sales people across the country ensures your customer satisfaction!

Engineered Dust Control Solutions

Diarex® Magnum™ Dust Collectors

The workhorse of our engineered control solutions for airborne silica, the Diarex® Magnum Dust Collection Unit is 99% efficient for filtering stone dust. Powerful, portable and affordable, the Magnum is an effective means to control airborne dust created during the granite fabrication process - starting at the "point of origin".

The Magnum's 99% efficiency is due to a unique three-stage filtration system:

1. A metal pre-filter with a G2 filtering efficiency.
2. Main filter stage polyester spun-bond cartridges with a USGC filtering efficiency.
3. Two-piece carbon after-filter.

User-friendly features include:

- All exterior adjustments on fume arms.
- Main filters and waste drawer located on slide-out tray for easy access and maintenance; no tools required for filter removal.
- Compressed air pulse cleaning of main cartridge filters.
- Minihelic gauge to view vacuum pressure.
- Heavy duty full-width handle for movement and cord storage.
- Integrated light kits within each fume arm.

Superior design features included:

- Heavy gauge welded steel cabinetry with baked powdercoat finish.
- Heavy duty large pneumatic rear wheels and front swivel casters with foot brakes.
- Low center of gravity to prevent tipping.
- Built-in systems to help prevent dust from recoating the filter after it is in the waste drawer.
- Noise reduction foam.
- Standard thermal overload protection with reset for the motor.
- Super-sized 6.7 gallon waste drawer.
- 4 gallons (20 liters) of compressed air capacity.

Warranty: 1 year electrical, 2 years mechanical.

Choose between two-station Magnum II two-arm unit or Magnum I one-arm unit.

GranQuartz

offers several state-of-the-art engineered control solutions for airborne silica created during the granite fabrication process. Review the following to determine which solutions are right for your shop, or consult with our knowledgeable technical support department by calling 1-800-458-6222.

117620	Magnum II	1	\$8,495

Ghines Idrodos Dust Suction Wall

No Filters Mean Zero Maintenance:

Mist created by the 10 HP motor continuously rinses stone dust from the collection panels inside the machine. A constant flow of water (approximately one gallon per minute) flushes the stone dust through the Idrodos to a drain line.

Independent analysis by the Italian Health Authority reports that the Idrodos retains over 98% of the collected dust.

- 10 HP, 4-pole, 3-phase motor.
- Suction area: frontal – 86" x 56" (2150 mm x 1400 mm).
- Water required: 3–5 liters, minimum.
- Capacity 7000 CFM.
- Wiring: separate control unit, command panel.
- Optional independent articulated arms: 10' long (3000 mm).
- Weight: 750 Kg. (Approx., with empty dust exhaustion tank).
- Warranty: 1 year mechanical only.

The Law

How is OSHA addressing exposure to crystalline silica?

- OSHA has a National Emphasis Program (NEP) for crystalline silica exposure to identify, reduce, and eliminate health hazards associated with occupational exposures.
- OSHA has an established Permissible Exposure Limit, or PEL, which is the maximum amount of crystalline silica to which workers may be exposed during an 8-hour work shift (29 CFR 1926.55, 1910.1000)
- OSHA also requires hazard communication training for workers exposed to crystalline silica, and requires a respirator protection program until engineering controls are implemented.

Stck No.	Description	Qty	Price
117522	Idrodos Dust Suction Wall	1	\$12,995
117518	Idrodos/Eolos Articulated Arm	1	\$2,195

Vacuums & Dust Muzzles

Surface Pro® Dustless Vacuum

Powerful 120 Volt, 11.5 Amp vacuum at an economical price. With 119 CFM rating, the Surface Pro 16 gallon combination wet/dry vacuum is complete with casters, a heavy duty hose and a complete set of attachments. Our Surface Pro Vacuum draws 76" of water column (most vacuums have 30"-40"). The vacuum features a triple filtration system. Two wet/dry filters surrounding the motor are

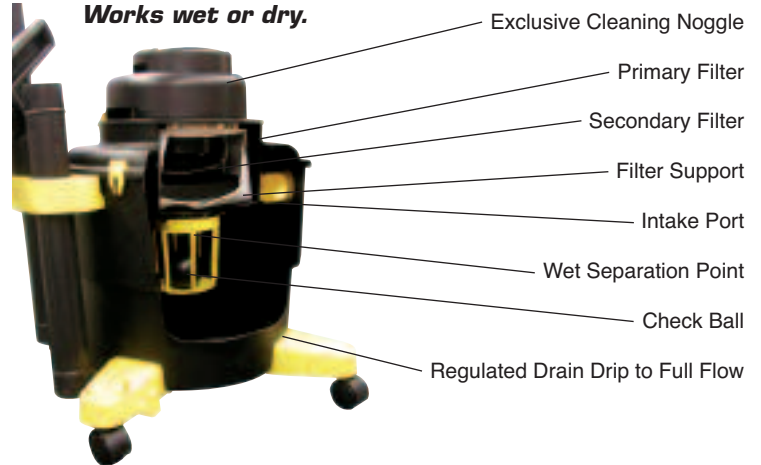

Vacuum System Benefits:

- Designed for use by the most demanding contractor.
- Primary and secondary filters may be cleaned without removing the lid
- There is no need to change the filters when switching from a dry job to a wet job (The filters never get wet).
- Powerful 23,000 RPM 11.5 amp electric motor.
- Recommended for any wet/dry application.
- Will never blow dust (Not even on startup).
- Filters are washable (just throw them in your washing machine).
- Patented double filter system.
- The quiet design - 81 decibels - makes for a better working climate.
- Excellent on all fine dust particles.
- The tools store easily on the vacuum.
- Automatic air shut off for all wet pickups.

Stck No.	Description	Qty	Price
114900	Surface Pro® Dustless Vacuum	1	\$299.95

cleaned by shaking a cleaning "noggle" on the outside of the vacuum. The third .5 micron disposable pre-filter bag (capable of holding 30 pounds of concrete dust) can be installed in the canister. When this filter is installed, the two filters that surround the motor rarely need cleaning.

Accessories

Stck No.	Description	Qty	Price
114902	Replacement Filters, Prim. + Sec.	Set of 2	\$34.95
114903	Micro Pre Filter	Set of 2	\$19.95
114915	6' Dust Muzzle Hose	1	\$21.95
114916	25' x 1 1/2" Flexible Hose	1	\$54.95
114917	2" x 2" x 2" Y Splitter	1	\$12.95

Dust Muzzles

The Dust Muzzle is a scientifically designed dust collection shroud made of polypropylene that uses the centrifugal forces generated by the grinder to remove dust and pollutants from the workplace.

Cup Wheel Applications

Fits any electric or pneumatic right angle grinders that have a round bearing housing.

Stck No.	Description	Qty	Price
114904	5" Dia.	1	\$84.95
114905	7" Dia.	1	\$84.95
114906	8" Dia.	1	\$84.95
114907	5" Muzzle Hood	Box of 2	\$59.95
114908	7" Muzzle Hood	Box of 2	\$59.95
114909	8" Muzzle Hood	Box of 2	\$59.95

Core Bit Applications

- Includes 18" hose to attach directly to vacuum.
- Two sizes: 2" adapts to core drills up to 2" in dia.; 3" adapts to core drills up to 3" in dia.

Stck No.	Description	Qty	Price
114910	With 2" Hole	1	\$41.95
114911	With 3" Hole	1	\$41.95

Because the centrifugal forces of the grinder push the dust out the exhaust nozzle of the Dust Muzzle, only a small vacuum is needed to further remove the dust to a canister or a central collection point.

- Flexible.
- Over 95% efficient.
- Easy retrofitting.
- Efficient on a variety of surfaces.
- Increases abrasive life by over 500%.

Handheld Saw Applications

- Fits on Makita 5277 NB and Milwaukee 6377

Stck No.	Description	Qty	Price
114912	Diarex® Saw Muzzle	1	\$69.95

Crack Chasing or Tucking Pointing

- Snap-on cover plates can be attached to any 5" or 7" Dust Muzzle (Note: Dust Muzzle must be cut in order to size to desired blade opening).

Stck No.	Description	Qty	Price
114913	5" Dia.	1	\$12.95
114914	7" Dia.	1	\$15.95

Material Handling

Total Solutions Program

The handling and working of stone slabs in the dimensional stone industry, both in the shop as well as on the jobsite, is a major potential safety hazard. The GranQuartz Total Solutions material handling program consists of high quality, innovative equipment that covers every stage of stone handling from unloading, storing & fabricating to transporting and installing. GranQuartz partnered with Gorbel, Manzelli and Aardwolf because of the leadership position within their respective product categories, the innovation of their product lines and the commitment to safety evident in the engineering, production and quality control of their industry-leading, high-quality material handling solutions.

Our GranQuartz Total Solutions Program most importantly translates into a reduced risk of job-related injury and significantly increases work productivity because of the ease of movement and positioning of stone in fabrication and installation work environments.

Safety Matters - Gorbel, Manzelli, Aardwolf - GranQuartz

Gorbel Work Station Cranes

Gorbel Gantry Cranes

Gorbel Jib Cranes

As an innovator and leader in the enclosed track work station crane industry, Gorbel provides a wide variety of overhead solutions, including Work Station Cranes, Jib Cranes and Gantry Cranes. Since 1977, Gorbel has been dedicated to providing high-quality overhead material handling solutions backed by a commitment to on-time delivery, a focus on customer service and the industry's best warranty.

- All Gorbel Jib and Work Station Cranes are in accordance with OSHA 1910.179 and all structural shapes are a minimum of ASTM A-36 designation.
- Gorbel Work Station Cranes improve productivity up to 28% compared to traditional I-beam cranes.
- The industry's best warranty of 5 years or 10,000 hours of use.

The Total Solutions program includes:

- Gorbel workstation cranes, gantry cranes and jib cranes, offering reduced worker strain, worker injuries and damage to material while increasing productivity.
- Aardwolf and Diarex material handling equipment, exclusively sold by GranQuartz, combining safe, solid, quality construction, intelligent engineering, and a value price.
- Industry-leading vacuum lifters from Manzelli - versatile, efficient, cost-effective and safe vacuum products lift and maneuver countertop material between transport and storage racks and stone processing equipment.

The Law

OSHA recommends that employers establish and document a process/procedure for:

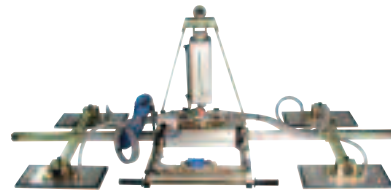

- Handling, moving, transporting and loading/unloading operations.
- Inspection and repair program of storage racks.
- Training all employees involved with material handling operations concerning safe work practices and company procedures.

Additionally, employers must be compliant with I/A/W 29 CFR 1910.179. Overhead Crane Operator Training, Maintenance, and Operation.

Manzelli Lifters

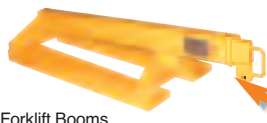

Industry-leading Manzelli Vacuum Lifters raise the bar when it comes to innovation and safety. In fact, many of the standard safety features incorporated into Manzelli lifters are considered "optional" equipment by other manufacturers:

- Aluminum vacuum reservoir allows industry-leading suctioning speeds and serves as emergency backup in event primary air supply is interrupted.
- Automatic lighted safety alarm sounds in the event of insufficient vacuum pressure.
- Adjustable stainless steel plates for optimal configuring of stone piece with lifter.
- The versatility of non-marking rubber gaskets allow suctioning of stone with different finishes.
- Electro-welded and corrosion resistant steel frame for years of safe operation.

Aardwolf Equipment

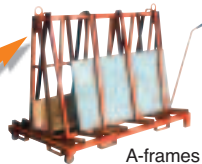

Aardwolf, the inventor of the original Aardwolf Lifting Clamp, continues to lead the stone handling industry with products soundly engineered and produced with safety in mind. Unlike many garage-shop metal fabricating suppliers, Aardwolf products are marked with a rating plate to give you the comfort of knowing that your product was engineered and tested to required load capacities. And, Aardwolf continues to introduce innovative products, like the new Aardwolf Remote Control Lifter, that are at the forefront of improving worker safety in the stone fabrication industry.

Forklift Booms

Load Rating certification Plates

A-frames

Remote Control Lifter 750232

The Wedgee™ 750135

The Wedgee™

- Insertion of the Wedgee between slabs creates the ideal space for insertion of slab clamp keeping employees out of dangerous "fall shadow zone"
- Helps maintain OSHA compliance
- Allows more efficient loading and unloading of slabs.

General Safety Supplies

Shop Safety Supplies

First Aid Kit

- Kit can be used to treat up to 10 people.
- Exceeds OSHA requirements.
- 6 partitioned areas keep first aid products organized.

Stck No.	Description	Qty	Price
340371	59 Item Kit	1	\$29.99

Fire Extinguisher

- Uses dry chemicals (ammonium phosphate) to help put out Class A, B, and C fires.
- Forged aluminum valve.
- UL rating: 3A:40B:C.
- 6-year limited warranty.
- Choose 5 lb wall-mount fire extinguisher for the shop or 2.5 lb. unit for forklift or other vehicles.

Stck No.	Description	Qty	Price
340374	5 lb.	1	\$49.99
340375	2.5 lb.	1	\$39.99

Safety Vest

- Cool, lightweight vest.
- Features hook and loop front closure.
- Elastic side strap.
- One size fits most.
- High visibility orange color.

Stck No.	Description	Qty	Price
340372	Safety Vest	1	\$9.99

Flammable Liquid Storage Cabinets

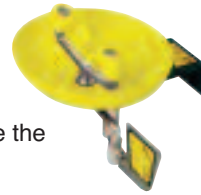

- FM approved, UL listed, and complies with OSHA and NFPA standards.
- 18-gauge, double wall steel provides a thermal barrier with 1 1/2" insulating air space.
- Easy-close, self-latching doors.
- Baked-on, high gloss powder-coat paint finish ensures durability and resists chemicals.
- Self-latching 3-point fail-safe closing mechanism includes keyed lock for added security.

Stck No.	Description	Qty	Price
750227	Storage Cabinet	1	\$699.99

Eye & Face Wash Station

- Twin spray heads provide soft streams of water to quickly cleanse the face and eyes.
- Meets ANSI Z358.1 standards and OSHA rules.

Stck No.	Description	Qty	Price
340370	Wash Station	1	\$259.99

Yellow Jacket GFCIs

- 3X more abrasion resistant than standard vinyl.
- 15 AMP, 12/3 gauge, SJTW.
- 2 ft length.
- PowerLite™ indicator plug glows when the cord has power.
- Manual test-reset buttons included.

Stck No.	Description	Qty	Price
422204	3 Outlets	1	\$49.95
422205	1 Outlet	1	\$39.95

Tyvek® Protective Coveralls

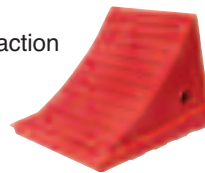

- Protection against dry particulates including silica, asbestos, lead, paint and mold.
- Lightweight construction.
- Reinforced zipper.
- Elastic waist sewn into the back.

Stck No.	Description	Qty	Price
340357	Medium	1	\$9.99
340358	Large	1	\$9.99
340359	XLarge	1	\$9.99

Wheel Chock

Impact absorbing chocks designed for maximum traction to grip tire and road.

- Tough urethane construction.
- Resistant to damage from oil and chemicals.
- Will not cause tire or pavement damage.
- Recessed carrying handle on back of chock.
- Mounting hole for ropes, chains or brackets.
- High-visibility orange.

Stck No.	Description	Qty	Price
340373	2 lb. Wheel Chock	1	\$29.99

Ergonomics

Knee Pads

- Durable, yet lightweight knee pads deliver all-day comfort.
- One size fits most

Stck No.	Description	Qty	Price
340369	Knee Pads	1 Pair	\$14.99

Back Support Belt

- Economical 8" belt gives you all the comfort and support you need for moderate lifting, bending, and flexing.

340365	Small	1	\$14.99
340366	Medium	1	\$14.99
340367	Large	1	\$14.99
340368	XLarge	1	\$14.99

Knit Gloves with Rubber Palm

- Rubber latex palm coating offers improved abrasion resistance and grip for lifting and handling rough objects.

Stck No.	Description	Qty	Price
340354	Small	1	\$2.99
340355	Medium	1	\$2.99
340356	Large	1	\$2.99

Personal Protective Equipment

Respiratory Protection

- Comply with OSHA respiratory protection requirements with our selection of NIOSH approved respirators.
- Choose from four styles of tight-fitting facepiece respirators, all NIOSH N95 certified.
- Half-mask respirator option offers choice of P100 or N95 filters.

Moldex 2700 N95 Respirator

- NIOSH certified to have a filter efficiency of 95% or greater against particulates free of oil.
- HandyStrap with buckle allows mask to hang down around neck when not in use.

Stck No.	Description	Qty	Price
340024	Medium/Large	Box of 10	\$24.95

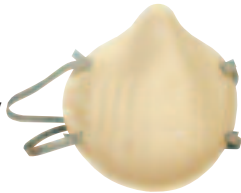

Moldex 2300 N95 Respirator

- NIOSH certified to have a filter efficiency of 95% or greater against particulates free of oil.
- Exhale valve reduces hot air build-up and keeps workers cooler.

Stck No.	Description	Qty	Price
100070	Medium/Large	Box of 10	\$21.95

Moldex 2200 N95 Respirator

- NIOSH certified to have a filter efficiency of 95% or greater against particulates free of oil.
- Dura-Mesh™ shell resists collapsing in heat and humidity.

Stck No.	Description	Qty	Price
340025	Medium/Large	Box of 20	\$24.95

N95 Respirator

- NIOSH certified to have a filter efficiency of 95% or greater against particulates free of oil.
- Adjustable nose piece with foam cushion.

Stck No.	Description	Qty	Price
340017	Medium/Large	Box of 20	\$14.95

The Law

OSHA has an established Permissible Exposure Limit, or PEL, which is the maximum amount of crystalline silica to which workers may be exposed during an 8-hour work shift (29 CFR 1926.55, 1910.1000).

OSHA also requires hazard communication training for workers exposed to crystalline silica, and requires a respirator program until engineering controls are implemented.

Additionally, OSHA has a National Emphasis Program (NEP) for Crystalline Silica exposure to identify, reduce, and eliminate health hazards associated with occupational exposures.

OSHA 1910.134 governs the use of respirators for any airborne contaminants that engineering and administrative controls cannot keep within acceptable limits.

Moldex 8002 Half-Mask Respirator

- NIOSH/MSHA approved
- Soft, yet durable face piece designed for comfort.
- Low profile provides a wider field of vision than any other respirator.
- Cartridges snap-in for easy replacement.

Stck No.	Description	Qty	Price
340022	Medium Size	1	\$19.95
340033	N95 Filters	5 Pairs	\$16.95
340032	P100 Filters	5 Pairs	\$42.95

Eye Protection

Eye Protection with side shields is a must in the stone fabrication industry. When operating stone-cutting machinery, protect your eyes from flying debris with our ANSI-compliant safety glasses.

- Meets ANSI Z87.1-2003 standards and complies with OSHA regulations for Safety Eyewear.
- Lenses made from polycarbonate material providing excellent impact resistance.
- Lenses are hardcoated for improved scratch resistance.
- Choose between stylish Riptide or Standard style.
- Riptide features wraparound design hugging the face for protection.
- Riptide available in two colors: clear (best for use in normal indoor lighting conditions) or amber (great for low light conditions providing enhanced contrast).

Standard

Riptide

Stck No.	Description	Qty	Price
340351	Riptide, Amber Lens	1	\$4.99
340350	Riptide, Clear Lens	1	\$4.99
340030	Standard Safety Glasses	1	\$2.95

Head Protection

A major potential hazard in the dimension stone industry involves the handling and moving of stone slabs in and throughout the shop or on the job site. Gear up with GranQuartz hard hats to work safely.

- Meets ANSI Z89.1-2003 Type I Class E/G and complies with OSHA regulations for Industrial Head Protection (Type I hard hats reduce the force of impact resulting from a blow to the top of the head; consult your Safety Manager for specific requirements).

Pinlock

Ratchet

- Lightweight, yet rugged polyethylene shell offers excellent protection.
- Low profile design features comfortable 4-point suspension, rain trough, and accessory slots for use with cap mount muffs, faceshields, communication devices, etc.
- Choose from either pinlock (similar to baseball hat) or ratchet (adjust with single knob) adjustment (see image below).

Stck No.	Description	Qty	Price
340352	Pinlock Adjustment	1	\$8.99
340353	Ratchet Adjustment	1	\$12.99

Personal Protective Equipment

Hearing Protection

The stone fabrication business, operating stone-working equipment, such as CNCs, routers, bridge saws and any other shop equipment, is a LOUD business. Protect your workers' hearing with proper earplugs or earmuffs.

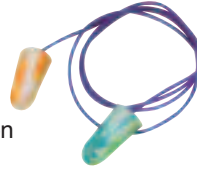

Moldex Sparkplugs® Plugstation®

- Tapered for easy insertion in any size ear canal.
- NRR 33.
- Non-irritating, smooth comfortable surface.
- 250 brightly colored pairs per container.

Moldex Sparkplugs® Disposable Foam Earplugs With Cord

- Tapered for easy insertion in any size ear canal.
- NRR 33.
- Corded SparkPlugs helps prevent losing the plugs and can rest over the shoulders when not in use.
- 100 brightly colored pairs per box.

Moldex Pura-Fit Earplugs

- Longer length for easy fitting and removal.
- NRR 33.
- Bright green color for easy compliance checks.
- Tapered for easy insertion in any size ear canal.
- 200 pairs per box.

Stck No.	Description	Qty	Price
340021	Plugstation®	1	\$27.85

Stck No.	Description	Qty	Price
340019	Earplug w/Cord	1	\$25.95

Stck No.	Description	Qty	Price
340020	Pura-Fit	1	\$26.95

Moldex Z2 Multi-Position Earmuff

- Cost-effective muff features a three-position headband.
- Sleek, curvy shape and special molded grips make fitting and alignment quick and easy.

Moldex M1 Premium Earmuff'

- SoftCoat covering helps muffle transmitted noise.
- Exclusive iridescent color and curvy shape for great looks.
- NRR 29.

Stck No.	Description	Qty	Price
340038	NRR 25 Earmuff	1	\$9.95

Stck No.	Description	Qty	Price
340039	NRR 29 Earmuff	1	\$24.95

The Law

Determining the need to provide hearing protection for employees can be challenging. Employee exposure to excessive noise depends upon a number of factors, including:

- The loudness of the noise as measured in decibels (dB)
- The duration of each employee's exposure to the noise
- Whether employees move between work areas with different noise levels
- Whether noise is generated from one or multiple sources

Foot Protection

OSHA 29 CFR 1910.136 requires that the employer shall ensure that employees use protective footwear when working in areas where there is a danger of foot injuries due to falling or rolling objects, or objects piercing the sole, and where employees' feet are exposed to electrical hazards.

Over-the-Shoe Style

- 100% waterproof rubber to help protect workers when operating machinery while standing in water.
- Slip-resistant cleated outsole for traction on wet surfaces.
- Knit lining for wearability.
- Top strap and buckle allow adjustment for secure fit.
- Boots are upsized to fit over your steel-toe boots, choose size closest to your regular shoe size (i.e. if you wear size 10 shoes, order size 10 boot).

Buffalo Style

- Steel toe style complies with ASTM F2413-05 I/75 C/75.
- 100% waterproof black PVC compound.
- Injection molded 100% PVC construction withstands high abrasive conditions.
- Abrasion-resistant nylon net lining for easy on/off.
- Aggressive, self-cleaning lug outsole for traction in tough, wet and muddy fabrication shop.
- V-bar molded shank for complete outsole support.
- Thicker sole provides added shock absorption.

Every fabrication shop and contractor should have a workplace safety program which includes, but is not be limited to:

- Safety Training
- First Aid and Medical Access
- Hearing Testing
- Electrical Safety
- Safety Audits
- Hazard Communications
- Respiratory Protection Program
- Workplace Hazards
- Procedural Instructions
- Emergency Procedures
- Equipment Malfunctions

The most important part of any safety program is the actual implementation of the program.

To help you with this, we have created a checklist to allow you to quickly and easily audit your facility.

The checklist below is conveniently organized by safety categories. Quantify your needs by comparing this list with the requirements of your safety program and with what is currently available in your shop. Remember to factor in any and all employees who are affected by your program requirements. Reference this catalog or our website for more specific information about each product. For further questions, contact one of our knowledgeable customer service associates by calling **1-800-458-6222**.
